

Happy Birthday!

Our Party Treat List

Children are welcome to bring a special treat on their birthday to share with their classmates.

Please be advised that this is a **nut-free treat list**. Please use **only** this list when supplying birthday treats for your classroom. This list will be modified for additional allergies in the class. All treats are “take-home” only.

- Specific brand names, sizes & packaging information have been listed to ensure safety from cross contamination issues.
- All items should be in the original, unopened package to avoid any cross-contamination.
- This list may be altered for a classroom based on additional food allergies.
- Treat bags can be placed on a table near the end of your child’s class. You are welcome to direct classmates to the table; however, please do not hand the treats directly to the children.
- Parents, it is your discretion on whether you will take a treat home with you or if you feel the treats are safe for your child.
- You are not required to bring treats to school or take treats home with you.
- **Our preferred suggestion is to provide a treat bag with non-food items such as bubbles, stickers or small toys.**
