Overview of the Methodology

The Downers Grove Park District conducted a Community Attitude and Interest Survey during November and December of 2006 to help establish priorities for the future improvement of parks and recreation facilities, programs and services within the community. The survey was designed to obtain statistically valid results from households throughout the Downers Grove Park District. The survey was administered by a combination of mail and phone.

Leisure Vision worked extensively with Downers Grove Park District officials in the development of the survey questionnaire. This work allowed the survey to be tailored to issues of strategic importance to effectively plan the future system.

In November 2006, surveys were mailed to a random sample of 2,500 households in the Downers Grove Park District. Approximately three days after the surveys were mailed, each household that received a survey also received an electronic voice message encouraging them to complete the survey. In addition, about two weeks after the surveys were mailed, Leisure Vision began contacting households by phone, either to encourage completion of the mailed survey or to administer the survey by phone.

The goal was to obtain a total of at least 500 completed surveys. This goal was exceeded, with a total of 519 surveys having been completed. The results of the random sample of 519 households have a 95% level of confidence with a precision of at least +/-4.3%.

The following pages summarize major survey findings:
Visitation of Parks During the Past Year

Respondents were asked to indicate if they or members of their household have visited any Downers Grove Park District parks during the past year. The following summarizes key findings:

- Eighty-seven percent (87%) of respondent households have visited Downers Grove Park District parks during the past year.

Q3. Have Respondent Households Visited Any of the Downers Grove Park District Parks During the Past Year

by percentage of respondents

Yes 87%
No 13%

Participation in Different Recreation Programs

Respondent households that have participated in Downers Grove Park District recreation programs during the past 12 months were asked to indicate how many different programs they have participated in during that time. The following summarizes key findings:

- Of the 45% of respondent households that have participated in Downers Grove Park District programs during the past 12 months, 76% have participated in at least two different programs, and 43% have participated in at least four different programs.

Q4. Have Respondent Households Participated in Any Recreation Programs Offered by the Downers Grove Park District During the Past 12 Months

by percentage of respondents

Q4a. Number of Different Downers Grove Recreation Programs Respondents Have Participated in Over the Past 12 Months

- 1 program: 24%
- 2 to 3 programs: 33%
- 4 to 6 programs: 30%
- 7 to 10 programs: 8%
- 11+ programs: 5%

Source: Leisure Vision/ETC Institute (December 2006)
Reasons for Participating in Recreation Programs

From a list of seven options, respondent households that have participated in Downers Grove Park District recreation programs during the past 12 months were asked to indicate the three primary reasons they participate in programs. The following summarizes key findings:

- Of the 45% of respondent households that have participated in Downers Grove Park District programs during the past 12 months, location of facility (71%) and fees for class (46%) are the top reasons that respondents participte in programs.

Source: Leisure Vision/ETC Institute (December 2006)
Quality of Recreation Programs

Respondent households that have participated in Downers Grove Park District recreation programs during the past 12 months were asked to rate the quality of the programs they have participated in. The following summarizes key findings:

- Of the 45% of respondent households that have participated in Downers Grove Park District programs during the past 12 months, 95% rated the programs as excellent (43%) or good (52%). In addition, 5% of respondents rated the programs as fair, and less than 1% rated them as poor.

Q4. Have Respondent Households Participated in Any Recreation Programs Offered by the Downers Grove Park District During the Past 12 Months

by percentage of respondents

Q4c. How Respondent Households Rate the Overall Quality of Programs That They Participated In

- Excellent 43%
- Good 52%
- Fair 0%
- Poor 5%

No 55%
Yes 45%

Use of Park District Facilities and Parks

From a list of 19 Downers Grove Park District facilities and parks, respondents were asked to select all of the ones their household has used during the past year. The following summarizes key findings:

- The Downers Grove Park District facilities and parks used by the highest percentage of respondent households are: McCollum Park/Mini Golf (48%), Patriots Park (37%), Recreation Center (34%) and Lincoln Center (34%). It should also be noted that 88% of respondent households have used at least one these 19 Park District facilities and parks during the past year.

Q5. Downers Grove Park District Facilities and Parks That Respondent Households Have Used During the Past Year

by percentage of respondents (multiple choices could be made)

Source: Leisure Vision/ETC Institute (December 2006)
From the list of 19 Downers Grove Park District facilities and parks, respondents were asked to indicate the three that their household has used the most during the past year. The following summarizes key findings:

- Based on the sum of their top three choices, the Downers Grove Park District facilities and parks that respondent households have used the most during the past year are: McCollum Park/Mini Golf (35%), Recreation Center (27%), Patriots Park (24%) and Lincoln Center (21%).

![Chart showing usage percentages for each facility and park.]

Executive Summary - 8
Overall Quality of Park District Facilities and Parks

Respondent households that have used Downers Grove Park District facilities and parks during the past year were asked to rate the overall quality of the facilities and parks they have used. The following summarizes key findings:

- Of the 88% of respondent households that have used Park District facilities and parks during the past year, 94% rated the quality of facilities and parks they have used as either excellent (46%) or good (48%). In addition, 3% of respondents rated the facilities as fair and only 1% rated them as poor.

![Graph showing quality ratings](source: Leisure Vision/ETC Institute (December 2006))
Organizations Used for Indoor and Outdoor Recreation Activities

From a list of 16 options, respondents were asked to indicate all of the organizations their household has used for indoor and outdoor recreation activities during the past 12 months. The following summarizes key findings:

- The organizations used by the highest percentage of respondent households are: Downers Grove Park District (52%), churches (28%), and the DuPage County Forest Preserve (25%).
Organizations Used Most for Indoor and Outdoor Recreation Activities for Ages 0-17

From the list of 16 options, respondents were asked to select the two organizations that their household use the most for recreation activities for household members ages 0-17. The following summarizes key findings:

- Based on the sum of their top 2 choices, the organizations that respondents use the most for household members ages 0-17 are: Downers Grove Park District (23%), DGYB/DOLLS/Panthers/Roadrunners (9%), Indian Boundary YMCA (7%), School District #99 (7%), and School District #58 (7%).

![Organizations Used Most](Image)
Organizations Used Most for Indoor and Outdoor Recreation Activities for Adults Ages 18+

From the list of 16 options, respondents were asked to select the two organizations that their household use the most for recreation activities for household members ages 18 or older. The following summarizes key findings:

- Based on the sum of their top 2 choices, the organizations that respondents use the most for household members ages 18 or older are: Downers Grove Park District (29%), Indian Boundary YMCA (14%) and private clubs (14%).

Q9b. Organizations That Respondent Households Use Most for Indoor and Outdoor Recreation Activities for Ages 18+

by percentage of respondents who selected the item as one of their top two choices

Source: Leisure Vision/ETC Institute (December 2006)
The most frequently mentioned reasons that respondents participate in the organizations they use most are: location of the program/facility (66%) and quality of the program/facility (39%).
Need for Parks and Recreation Facilities

From a list of 27 various parks and recreation facilities, respondents were asked to indicate all of the ones that they and members of their household have a need for. The following summarizes key findings:

- There are four parks and recreation facilities that at least 50% of respondent households have a need for: walking and biking trails (79%), indoor fitness and exercise facilities (59%), nature center and trails (57%) and indoor running/walking track (50%).

![Chart showing the percentage of respondent households that have a need for various parks and recreation facilities.](chart)

Need For Parks and Recreation Facilities in Downers Grove

From the list of 27 parks and recreation facilities, respondents were asked to indicate which ones their household has a need for. The graph below shows the estimated number of households in Downers Grove that have a need for various parks and recreation facilities, based on 18,979 households in the Downers Grove.

![Graph showing estimated number of households in Downers Grove that have a need for various parks and recreation facilities.](image)

Q11a. Estimated Number of Households in Downers Grove That Have a Need for Various Parks and Recreation Facilities

by number of households based on 18,979 households in Downers Grove (Source 2000 US Census)

- Walking and biking trails: 14,936
- Indoor fitness and exercise facilities: 11,198
- Nature center and trails: 10,742
- Indoor running/walking track: 9,564
- Outdoor swimming pool/water park: 9,148
- Playground equipment: 9,110
- Picnic shelters: 8,465
- Outdoor band shell: 8,294
- 9 hole golf courses: 7,743
- Indoor swimming pool/leisure pool: 7,630
- Indoor lap lanes for exercise swimming: 6,111
- Outdoor tennis courts: 5,713
- Historical Museum: 5,599
- Splash park: 5,447
- Indoor basketball/volleyball courts: 4,916
- Baseball fields: 4,555
- Outdoor basketball courts: 4,346
- Off-leash dog park: 4,175
- Soccer fields: 4,118
- Indoor sports fields (baseball, soccer, etc.): 3,628
- Warm water therapy pool: 3,530
- Senior center (55 plus years of age): 3,492
- Gymnastics center: 3,169
- Softball fields: 3,109
- 50 meter competitive pool: 2,600
- Football and lacrosse fields: 1,632
- Skateboarding park: 1,215

Most Important Parks and Recreation Facilities

From the list of 27 parks and recreation facilities, respondents were asked to select the four facilities that are most important to their household. The following summarizes key findings:

- Based on the sum of their top 4 choices, the facilities that respondents rated as the most important are: walking and biking trails (46%), outdoor swimming pool/water park (26%), indoor fitness and exercise facilities (25%) and playground equipment (24%). It should also be noted that walking and biking trails had the highest percentage of respondents select it as their first choice as the most important facility.
Need for Recreation Programs

From a list of 23 recreation programs, respondents were asked to indicate all of the ones that they and members of their household have a need for. The following summarizes key findings:

- There are three recreation programs that over 30% of respondent household have a need for: adult fitness and wellness programs (55%), Park District special events (34%) and youth sports programs (33%).

Q13. Percentage of Respondent Households That Have a Need for Various Recreation Programs

by percentage of respondents (multiple choices could be made)

Adult fitness and wellness programs: 55%
Park District special events: 34%
Youth sports programs: 33%
Youth sports leagues: 30%
Nature programs and exhibitions: 29%
Water fitness programs: 29%
Youth Learn to Swim programs: 26%
Adult sports programs: 22%
Local history programs and exhibitions: 22%
Youth art, dance, performing arts: 19%
Gymnastics and tumbling programs: 18%
Youth summer camp programs: 18%
Youth fitness and wellness programs: 17%
Pre-School programs: 17%
Adult art, dance, performing arts: 17%
55 years plus active programs: 16%
Tennis lessons and leagues: 16%
Birthday parties: 13%
55 years plus passive programs: 13%
Martial arts programs: 11%
Before and after school programs: 11%
Youth golf league: 11%
Programs for those with Special Needs (SEASPAR): 2%

Level of Satisfaction with Various Parks and Recreation Services

From a list of 21 various parks and recreation services provided by the Downers Grove Park District, respondents were asked to indicate their level of satisfaction with each one. The following summarizes key findings:

(Note: graph below excludes “don’t know” responses.)

- The parks and recreation services that the highest percentage of respondents are very satisfied with are: number of Downers Grove parks (67%), maintenance of Downers Grove parks (55%), customer assistance by staff at facilities (43%), ease of registering for programs (42%) and availability of info about Downers Grove programs (41%).

![Graph showing satisfaction levels for various services provided by the Downers Grove Park District]
Parks and Recreation Services that Should Receive the Most Attention

From the list of 21 various parks and recreation services provided by the Downers Grove Park District, respondents were asked to select the three they feel should receive the most attention from Downers Grove Park District officials over the next two years. The following summarizes key findings:

- Based on the sum of their top 3 choices, the parks and recreation services that respondents feel should receive the most attention over the next two years are: number of walking/biking trails (29%), maintenance of Downers Grove parks (20%), and Park District adult programs (13%). It should also be noted that number of walking/biking trails had highest percentage of respondents select it as their first choice as the parks and recreation service that should receive the most attention over the next two years.

![Chart showing the percentage of respondents who selected different services as their top three choices. The key findings are highlighted in the chart.](chart.png)
