

OAKT^oBER

OAK AWARENESS MONTH

BUR OAK

MATURE HEIGHT

70-80 feet

MATURE WIDTH

70-80 feet

LIGHT EXPOSURE

Full sun (6 hours direct light daily)

SOIL PREFERENCE

Alkaline soil,
Dry soil, Moist,
well-drained soil

The stately bur oak, native to the Midwest, is a great choice as a shade tree and for specimen plantings in parks, spacious yards, and other large areas.

Its massive trunk has gray to brown furrowed bark and its branches bear lustrous dark green leaves that turn yellow-brown in fall. Large acorns with fringed caps attract birds and small mammals.
